Roshan Patro

Java Backend Developer

A motivated Java Backend Developer with proficiency in potential Frontend (HTML, CSS, JavaScript) and Backend (Java, Spring, Hibernate, MySQL) technologies, excited for an opportunity to bring understanding into real-life problem-solving applications and grow in the career by being an integral part of a solution-oriented and technology-driven organization.

PROJECTS

Brightline Clone

A clone of hellobrightline.com, a Healthcare website specifically for kids and their families to get behavioural and mental health care.

Tech Stack: HTML | CSS | JavaScript

Features: Log-in | Sign-up | User authentication integrated with the frontend | Media query for all devices | Fixed Navigation Bar with background color variations | News Cards with sliding effect

Areas of responsibility:

- Led team members to manage the workflow throughout.
- Built the Navbar and footer of the website and made it responsive for all devices
- Designed the Home Page and the Opportunities Page with complete responsiveness.

A collaborative project developed by a 5-member team within 4 days.

ZEE5 Clone

A clone of zee5.com, an over-the-top (OTT) and video-on-demand streaming platform run by Zee Entertainment Enterprises.

Tech Stack: HTML | CSS | JavaScript

Features: Log-in | Sign-up | User authentication integrated with the frontend | Media query for all devices | Movie Cards with sliding effect

Areas of responsibility: An individual project developed within 4 days.
